Quality differences in material, fit and comfort are difficult to distinguish on an image. That's why we granted each item with a number of stars.

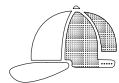

The Promocap® collection consists of attractive priced caps in the most common colours and qualities. Promocap® offers consistent quality and short delivery times.

CREATE YOUR SIGNATURE

In the core of Poederbaas, we believe that every person shall create a remarkable path in his own adventure. Poederbaas designs the collection and tests new product samples before taking them to production. A part of the collection is still made by a team of grandma's that take great pride in every product they make. The other part is produced by organizations that are member of the Business Social Compliance Initiative. The BSCI is an initiative to support retailers, importers and brands to improve working conditions in farms and factories worldwide and offers a common code of conduct for taking social responsibility.

Poederbaas beanies are mainly made of high quality long acrylic fibers that are strong, don't pill and feel soft. This fiber type resists water and wind very well and is highly UV proof. There is no water uptake (1%) and the acrylic based fibers dry very quickly. It holds warmth even better than wool can do and does not itch on the skin as many people experience with wool.
